## Coal Strike Parley is Near, White House View; Negotiations are Secret

**Harding Feels Nothing Can Be Gained by Premature Discussions.**

### BOTH SIDES FAR APART

**Government Hopes to Make Early Announcement of Progress Towards Ending Industrial War, But Many Concessions Must Be Made by All.**

By Associated Press.

WASHINGTON, June 27.—Indications were given at the White House today that the government soon would be able to make an announcement in the coal strike situation, and that the step contemplated was a move to bring the leaders of the union miners and representative operators together for a discussion of wage differences.

President Harding was said to feel that the "difficult and delicate" negotiations between individuals and the government necessary to bring about the meeting to be desired would not be aided by public discussion.

Operators who have objected to meeting the miners in national or semi-national wage conferences and mine union spokesmen who have been refusing to meet operators in district conferences cannot be induced to yield their objections if they are publicly forced into concessions, in the opinion of the President.

The coal situation in all its ramifications was understood to be one of the chief topics up for consideration by President Harding at today's cabinet meeting. Just what form the government plan will take no official was prepared to state, though it was understood that some officials, after conferring with John L. Lewis, president of the United Mine Workers, were of the opinion that no break whatever could be expected in the ranks of union labor and that a move was necessary to bring operators into conference at once.

WASHINGTON, June 27.—With the belligerent coal strike situation unchanged after a conference of President Harding and Secretary of Labor Davis with John L. Lewis, president of the United Mine Workers of America, there had been no indication today of what further steps the Administration might take to bring about a settlement of the controversy.

Although Mr. Lewis expected to remain another day in Washington he was said to have no other appointments with officials.

Announcement that the union had not altered its position that a new wage scale for the bituminous industry must be negotiated through national or semi-national conferences with operators was made by Mr. Lewis yesterday after a luncheon conference at the White House with the President and Secretary Davis.

WASHINGTON, June 27.—Business organizations affiliated with the Chamber of Commerce of the United States were called upon today by Judge H. Barnes, president of the chamber, to lend their cooperation in the effort to prevent a runaway coal market by setting up machinery for coordinating the distribution of coal among their local industrial and individual consumers. Each of the 1,400 organizations—chambers of commerce and trade associations—was to appoint a fuel committee and make an immediate survey of the local coal situation.

ALTOONA, Pa., June 27.—It was stated at the United Mine Workers headquarters at Crosson today that President John Brophy and other miners' officials had visited a number of sections of the Central Pennsylvania fields where the miners are on strike and found the moral of the men higher than for some time.

Men employed in a small mine at Lethersburg have gone out on strike and formed a local union at that point.

The operators' policy committee of the Central Coal Association is meeting here today but no intimation of the action to be taken was announced in advance. The only information obtainable was that a statement might be given out after the meeting.

### Miners Say Union Men Made Threats; Seek an Injunction

By Associated Press.

PITTSBURG, June 27.—Testimony was heard by Judge Thomson in the federal court today on the application of the Scott Coal Company to restrain officers and members of the United Mine Workers from interfering with the operation of its mine near Pittsburgh.

J. F. Lyons, foreman on a steam shovel, testified he had been hit by a brick by a party of men marching near the mine and had been told he would "get his right" if he returned to work the next day.

A. A. Himes, an oiler on the shovel, testified that the marchers invaded the company property and he was warned not to go back to work.

MINERS WOUNDED AT HERRIN FEAR FURTHER TROUBLE

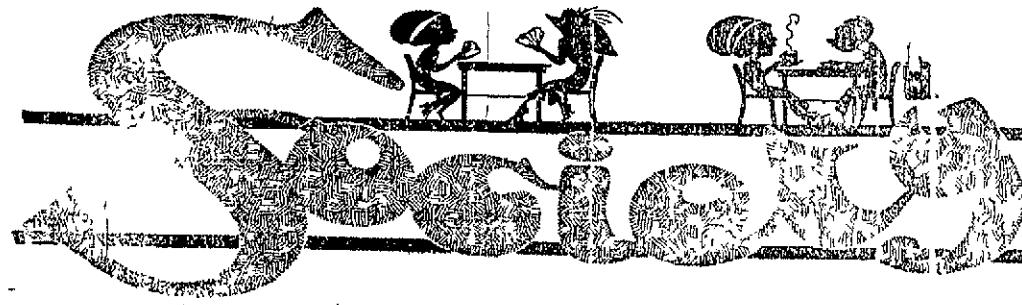

By Associated Press.

HARRISON, Ill., June 27.—Removal to safety from Williamson county and the Southern Illinois coal fields of wounded union men now in the hospital is one of the problems coming in the wake of last Thursday's mining massacres.

Twenty wounded survivors of the 47 guards and workers sent on the death march out of the Lester strip mines still are in danger, according to information reaching state and federal investigators.

Lying on their coils some of the wounded say they sense danger and fear leave unprotected.

Herrin's law-respecting citizens believe a body of state troopers would solve the problem and dispel further danger to the injured guards and workers from the wrath of strikers.

### A Prescription for High Blood Pressure

In one month's time Evans' Triple Phosphates puts on several pounds of weight, builds up the body, removes your weak, run-down, nervous tired body into a strong, vigorous robust one, or money back.

Most of our medical men are surprised and many are still unbelievers, but the fact is evident to every up-to-date physician that Evans' Triple Phosphates will break flesh without violence, and furnish a daily massage or beauty torture.

In order to assimilate the nourishing food thin people daily take into the body, the body needs to rest, to assimilate the nerves that control the process of digestion and assimilation must be put in first-class shape, and until that is done you might just as well go to the hospital. Your digestive system is staring for something that will turn the food you eat into healthy stay-there flesh, and it can only be done in one way—by curbing fatty nerves, dieting, and exercise.

It is guaranteed to increase your weight at least several pounds, and in 10 days makes you feel a new being, full of muscle, vigor, and a desire to accomplish things. Connellsville Drug Co., C. G. Heitzel, and all good drugists have agreed to supply Evans' Triple Phosphates and guarantee it to do just what is claimed for it, or money back.

Even though Evans' Triple Phosphates works wonders in all cases of nervous, digestive and blood troubles, don't take it unless you really desire to put on flesh and gain weight.—Advertisement.

**DEMOCRATS HOPE NOT**  
**BILLING REALIZED,**

The claims hopes and prayers of the Democratic organs that Republicans members of the present Congress are or will be invited to private life; the vote's and other nominees selected to succeed them are failing of realization and greatly to the chagrin of the political prophe

Light states have already held primary elections at which nominees for congress have been selected by all parties. In those primaries 92 Rep

publicans in numbers of the present House of Representatives were candidates for renomination on the Republican ticket. Of these 92 the last majority were unopposed. Of those having opposition only six were defeated two in Illinois and four in Pennsylvania. Out of 92 Republican repre

sentatives who have gone before the people of their districts and asked for an endorsement of their records and the record of the Republican Congress and Administration 85 per cent have been given endorsement the result is in the several states where a Republican primary has been held to date have been as follows:

Illinois 21 Republican members of the present House asked for renomination and 19 received renomination.

Indiana 12 Republicans of the present House asked for renomination and all received renomination.

Pennsylvania 22 Republicans of the present House asked for renomination and 15 received renomination.

Oregon The solid Republican delegation of the present House three in number asked for renomination and all received renomination.

Iowa 10 Republican members of the present House asked for renomination and all received renomination.

Maine The solid Republican delegation four in number asked for renomination and all received renomination.

Minnesota The solid Republican delegation 10 in number asked for renomination and all received renomination.

In view of this showing the query naturally arises If there is such widespread dissatisfaction with the record of the present Congress and Administration why is it not manifested at the primaries? If this Congress were in fact the "do nothing" body that Democratic critics represent it to be why do the people endorse its members for reelection?

If the people of the country are as intent upon renouncing Harding as the Democratic leaders and their publicity mediums would have us believe why do the voters fail to register their dissatisfaction at the polls?

The plain answer is that the alleged complaints concerning the acts of Congress and President Harding exist only in the fevered imaginations of his camping critics of Democrats belief and training who are obsessed with the notion that the political nose trumps the mouth disgruntled party and the only criterion for the repeated file of our body politic. The truth is that the problems confronting the nation are being solved so satisfactorily by the present administration that the people who took part in the Great Repudiation if the election of 1920 have determined to continue the process by preventing a return to power of those whose object and purpose would be to attempt to restore the items virulent and experiments of a previous administration which well nigh brought the country to national bankruptcy.

The appearance of the first ripe tomato reminds us that summer is here actually as well as by the almanac.

The grief and sorrow at the death of the late Rev. Robert L. Cairns was sweet and heartfelt on part of his numerous friends in Connellsville to whom it will be a great comfort to know that his last resting place is here where he has in his life's work, a devout and faithful servant of his Master.

If President Lewis of the United Mine Workers were as insistent in demanding that his organization assist in prosecuting those responsible for the Horner mine killings it is his a bit too and unwilling in his demand that a settlement of the strike shall be made except upon the basis laid down by his policy committee would do much to advance both himself and his organization in public.

**A Weak Disclaimer**

Pa. Gazette Times

So absurd was the action of the United Confederate Veterans in endorsing a history which places responsibility for the Civil War on Abraham Lincoln that it was not unreasonable to expect it to be repudiated by those with greater historical knowledge than is possessed by the rank and file General Jul in S C or the commander in chief of the order and General H. H. How a head of the society of the Army of Northern Virginia, have published a statement disavowing the sentiments expressed by the convention. However this disclaimer does not stop the veterans from modifying in a decree in their convention that Lincoln was no more responsible for the war than Jeff Davis.

The responsibility for the war certainly lies on those who started it. If the South had not set up the Confederacy in which Jeff Davis was a leading part there would have been no war. President Lincoln did not know until there was an overt act of rebellion in the spring of 1861. It was his responsibility for that. At that time Jeff Davis was the head of the alleged government of the slave states. As the bombardment of Sumter was an act of war Jeff Davis as president was responsible for it.

Thus in coupling Jeff Davis with Lincoln in giving exemption of responsibility immunity he is responsible to one who certainly is not guiltless than Lincoln accepted the debt but he was not wise to blame it for it being offered. It is true that Jeff Davis was not alone in preaching this lesson but he was most conspicuous among them. The remnant of the Confederate forces may hope to receive the strong penetration of teaching this history but they can not alter the fact that Jeff Davis cannot be glorified by claiming that Lincoln is of meanness responsible for the precipitation of the Civil conflict. The South is willing to forget the South's rebellion provided the South does not seek to vindicate its responsibility.

**MOUNT EVEREST  
AGAIN BAFFLES  
HUMAN EFFORT**

VICTORIA, ENGLAND

LONDON June Mount Everest has again baffled the best efforts of man.

The English correspondent of the Daily Telegraph Monday confirmed previous report that British General C. G. Bruce head of the present expedition, has agreed to the conclusion that persistence in the effort to scale the peak would only result in

dangerous tragedy.

General Bruce was most reluctant to abandon further attempts but the condition in which the two last climbing parties returned the advice of his medical officers and the certainty of worse weather conditions daily forced him to a decision says the writer.

Major H. T. Morshead was the worst sufferer from frost bite. G. L. Mallory another member of the party also was badly bitten and several times others less severely.

The correspondent quotes one of the greatest authorities on Himalayas as saying that Bruce's glorious fall has proved conclusively that the summit is almost attainable. The authoritive says in India in that if an expedition started earlier in the season it might reach within a thousand feet of the top but that the last lap could only be covered by almost superhuman effort under unprecedently favorable weather conditions and by men who faced the certainty that they would never return.

**THE ANGLO-SAXON TRAIT**

The good old Anglo-Saxon race is a bulwark of honest folk. In early days our faith was worked up after you upped the bill. With sturdy veins to beat the tramp and roots of their farms from stubble and stones. And in their children's hearts, they would plant the tree which never yields.

Folks have swept them from their homes but they return to half again.

People and food have no place in their earlier labors all we may gain.

But still tamely they plow unto their dream and to their land for no true Anglo-Saxon giveth while he labors with his hands.

This is the ring now own this is the story of our race.

There can be no part kept in the faith with which we have been born.

Davis' Kidney Pills are for one thing only.

For weak or disordered kidneys ask your neighbor.

Here is Connellsville evidence to prove 'tis worth.

Mrs. Albert Shantz, 210 W. Morton Ave., Connellsville says: "My kidneys have been generally weak for several years and the least bit of exertion puts my kidneys out of order. I had to get to act too freely and my back acted constantly across the middle of it. I was hardly able to get around. Headaches, dizziness, spells and black specks came before my eyes and I would run down and wear out. I still like this was always relieved by prompt use of Davis' Kidney Pills. Since it would regulate my kidneys and remove all the other symptoms, I kill no robbins. Davis' Kidney Pills are our favorite household remedy."

My pains are all gone and I feel I am now mostly cured. It is true the terrible pictures from the news media do not show the pain, but they do. ## It is Always Summer for a Buick Motor

The Buick motor is constant in power, in acceleration and smoothness because its carburetor automatic heat control functions equally well in summer or winter, under every motoring condition. All the heat required for the proper vaporization of present day low-grade fuels is supplied automatically as the throttle is opened and closed.

The carburetor automatic heat control is just one more of the exclusive features that make the Buick owner dissatisfied with anything but a Buick.

had crossed croaking and meadow

wardly exposed, little mound. Under
